ClipBoard Cleaner Crack +

ClipBoard Cleaner Crack License Key Full (Final 2022)

KeyMouse is a freeware utility designed to add a customizable keyboard shortcut to close all open browser tabs, or any arbitrary URL (web page). The program is made with a nice look and feel, and it is easy to use. On the top-right corner of the main window, there is a button that allows you to customize the keyboard shortcut for the window's closing (ie., a 'Shift+F4' combination for a Chrome tab). Once you have defined your preferred key, you need to press the button that will allow you to specify the text that will be inserted when you press the assigned key combination. Features: A nice looking, intuitive, and easy to use program Ability to assign any command to a key combination The program integrates smoothly with the OS and browser No configuration required A simple and intuitive way to close open tabs in a web browser Supports the currently used web browser Installation: The installation of KeyMouse is very simple. Once downloaded, double-click the program's setup file to begin the installation process. KeyMouse Requirements: KeyMouse is available for Windows 7 or higher and may run on XP

too. It requires a fair amount of RAM to run (at least 256 MB) and a clean installation of Windows. Conclusion: KeyMouse is a simple, yet comprehensive, utility for closing open browser tabs. It is a nice looking and easy to use program that adds a customized keyboard shortcut for closing tabs and URLs. CardSpray is a digital asset management solution for business card collections. It consists of three modules - Capture, Edit and Share. It offers a free trial. Capture Module CardSpray offers an intuitive way to store business cards. It runs without any installations. It captures the text on the card along with image by automatically adding meta data to the card. The stored files can be viewed in the list, searched and sorted. Images of cards can be imported and saved directly. Using the options available, you can adjust the size of the images, assign an image to a specified category and even add a custom label. Cards can be easily deleted or moved to a different folder if required. Editing Module CardSpray's editing module lets you edit your business card files. You can change the card text, delete text or change the category of the card. The changes you make are instantly saved to the files and can be easily viewed. Once made, the changes are automatically saved if you choose to do so. 81e310abff

ClipBoard Cleaner Crack+

ClipBoard Cleaner is a feather-light and straightforward tool designed to empty your Clipboard after you finish working on your computer, in order to prevent other people with access to your PC from viewing and copying your passwords or other kind of important information. Clipboard Cleaner is a light and straightforward tool that allows you to empty the Clipboard after you finish working on your computer.
