It is known as the most intricate and expensive structure in the world. The temple is built of a coral stone called onaholepoha, which is quarried on the island of Oahu. This coral stone, much like the Diamond Head, is red to white in color. The design of this temple is unique. There are two towers, each tower being the equivalent of a step that reaches the heavens. The bottom tower is 57 ft. tall and the top is 75 ft. tall. There is a 6 ft. wide pathway around the base of the two towers. The top of the temple is designed to have a beautiful pattern consisting of wonderful shapes of leaves and leaves and flowers. All the plants have made this temple a wonder to behold.
