Fireworks Fireworks was one of the first Flash-based application for Adobe Flash Professional. It was founded by Artemiy Khomenko and implemented by Adobe Systems and is originally a tool for producing Flash animations and interactivity. It supports vector and bitmap graphics and is used to create animations and interactive websites. Fireworks has also been used to create technical illustrations and presentations. In 2009, Fireworks was listed among the top ten most popular Flash applications. Adobe is no longer supporting Fireworks, and in November 2011 the license for the product was terminated. Instead of a web interface for adding images to Fireworks, users are now required to install the Fireworks Classic app on Windows (macOS and Linux versions are available as well). Navigation and layout software AutoCAD: AutoCAD is a commercial CAD application. It was released by Autodesk in 1989. The release of AutoCAD for free was highly successful and millions of users became familiar with the software. The competition was so intense that many products were developed to extend AutoCAD capabilities, for example, FineMill (Graphics and printing technology) and BRAW (add-on tools for AutoCAD to create 3D models). AutoCAD allows complex geometry to be viewed in 3D. In 2006, Autodesk acquired the Crossley, U.K.-based developer of CopyCAD. In November 2011, the license for AutoCAD was terminated and the price was cut to \$250. Grapher: Grapher is an engineering mathematics application by Massachusetts Institute of Technology, Lincoln Laboratory (LLNL) and Autodesk. Microstation: Originally developed by Prime Computer in 1984, it is now an asset management and visualization software, and a 3D product lifecycle management tool. Prime Computer's intellectual property was purchased by Autodesk in the early 1990s. It has since been repositioned to focus on CPM and product lifecycle management. VectorWorks: VectorWorks is a product lifecycle management application. Its goal is to make the product development process transparent to its users. VectorWorks was originally developed by Vector Technology (VTS) but was purchased by Autodesk in 1994. In 1998, Autodesk acquired VTS and renamed the company to VectorWorks. In 2012, VectorWorks became a wholly owned subsidiary of Autodesk. VectorWorks Viewer: VectorWorks Viewer is a web-based software to view, share, and print three-dimensional drawings

### What's New in the AutoCAD?

Markup Assist works similarly to Microsoft Word's track changes feature. Drawing and annotation data can be stored and reused. (video: 1:21 min.) Automatic Text AutoComplete: AutoComplete works as you type, and supports right-to-left languages. Draw and annotate to suggest or replace words, phrases, or entire lines, and see the results in the drawing. (video: 1:42 min.) Snap Review: Snap Review shortcuts your review workflow by automatically showing you your snap revisions. Preview revisions and annotations, plus adjust them on the fly using the 2D canvas. Partition Markup: Mark partitions and moves on your drawing for more flexibility. Easily create and position partitions for your designs. Or use options to make a graphic representation of a plan view or elevation. (video: 1:32 min.) Enhanced Object Dependencies: Easily find and edit connected object information in one place. Use the new Object Dependencies dialog box to select and edit object relationships. Virtual Sets: Virtual sets let you share common sets for reusable objects. They also improve collaboration by supporting the ability to send a drawing with multiple identical objects to others. Arc3D: Use the improved Arc3D tool to draw common shapes in a drawing with precise angular measurements. Table Ruler: Use the new Table Ruler tool for precise arc adjustments. Enhanced Convert: Use the new Convert dialog to find and convert more than 1,000 objects and symbols from one design to another. 2D Fitting: Draw and annotate fitting constraints. Fitting is now one-click and quick. Vector Preservation: Easily send a drawing's auto-generated vector graphics to others. The new Vector Preservation command automatically saves individual paths, symbols, and curves in a preserveable format. (video: 1:50 min.) Interactive Entity Management: Manage multiple entity attributes in one place. Use Interactive Entity Management to select, edit, and move attributes for entities such as blocks, doors, windows, and accessories. (video: 1:36 min.) Raster to Vector: Rasterize drawings for higher-quality vector files. The new Raster to Vector command converts raster files to vector, makes them editable, and gives you the option to preserve the original data
