Before purchasing an AutoCAD license, ask yourself: "What kind of AutoCAD user will I be?" "What kind of project will I be working on?" If the answers to both questions are professional-level design, you'll need to look at a desktop version of AutoCAD and not a web or mobile app. Some users may be creating simple 2D drawings, and may not need to upgrade their software license to a desktop edition. A single Design Suite license is used for all the apps in the suite. AutoCAD Studio, AutoCAD Architecture, AutoCAD Electrical, and other apps are all part of the Design Suite, so you'll need one Design Suite license to use them all. A new license, Design Suite Personal, is available for AutoCAD users who want a personalized experience on macOS. You'll get free upgrades for all Design Suite apps, plus your choice of AutoCAD, AutoCAD LT, or AutoCAD Architecture licenses. In this case, you can still use your existing Design Suite license.
